

## Excellence – nothing else

The IATF 16949 certification awarded to us is a recognition of the product and services excellence we constantly provided to our customers since 100 years of Preh company tradition and in over 30 years at automotive business with our products and processes.

With this services excellence we are able to satisfy our customers over the complete product life cycle. Our goal is to fully satisfy our customer's expectation through the quality of our products and services. Our directives, processes, systems and goals are based on requirements of international standards, customer expectations, our knowledge and experience. Knowledge of and compliance with these directives and processes is the foundation of our quality.

## Zero Defects

Quality means doing things right in the beginning, thus preventing failures in the end. Avoiding failures is more important than eliminating defects. Therefore we focus on quality excellence in everything we do in order to optimize our processes and resources to prevent scrap by doing lessons learned, according to the loop PDCA (Plan Do Check Act).

## Innovation and Sustainability

We design innovative products for the market of tomorrow. We define ambitious global operational goals to take care about our environment and resources from the beginning of the design to the end of the product life cycle.

## Attractive Employer

We offer challenging job opportunities as well as continuous learning and provide attractive working conditions. Our global interdisciplinary team strive daily together for EXCELLENCE.

## Reliability

We are a strong reliable partner for all our stakeholders. Therefore, reliability does also mean to be an effective partner in solving problems and mastering challenges. Here, transparent communication and keeping promises is our key for excellence. The Executive Board, Management and all employees are fully committed to quality excellence, continuous learning and continuous improvement as set in this Quality Policy.
